📄 PROFILE

I've never called myself a frontend or a backend developer. I call myself curious.

Like Dorothy, I follow my own **yellow brick road**, but I look at the journey more than the destination. I build digital things: software, websites, systems, automations, the part that sits beneath what you see. Curiosity led me to LLMs, to build systems that actually work.

📄 EXPERIENCE

📄 Mediass SpA · Insurance brokerage

TECH LEAD

Jun 2026 – present

I lead the internal development team and external partners: architecture, code reviews, standards, CI/CD and planning. Still hands-on on the backend.

BACKEND DEVELOPER

Oct 2024 – May 2026

The infrastructure nobody sees: REST APIs, insurer and e-signature integrations, data flows and automation, including LLM workflows.

Tech leadership

GraphQL

Insurer integrations

Automation

📄 Omniasoft Group · Software house · remote

FULL STACK DEVELOPER

Jun 2021 – Oct 2024

CRM, customer management and e-invoicing, from database to interface. My first role in the industry: from junior to autonomous developer.

CRM

E-invoicing

Laravel

Vue.js

📄 PROJECTS

Complify · Personal project

GROWING

Multi-agent system that monitors insurance regulations: IVASS, Gazzetta Ufficiale, ANIA, EIOPA.

Nostos Design · Co-founded studio

Oct 2024 – present

With a UX/UI designer: she designs, I build what sits underneath. Software, websites, online brands.

📄 WHAT I DO

📄 APIs and integrations

📄 Automation and data flows

📄 Multi-agent systems with LLMs

📄 STACK

Languages

PHP, JavaScript, TypeScript, Python, HTML, CSS

Frameworks

Laravel, Node.js, Express, Vue.js, React, Inertia.js, Prisma

Data

MySQL, PostgreSQL, MongoDB, Redis, Kafka

AI & LLMs

OpenAI, Anthropic, RAG, Qdrant

Infrastructure

Docker, Kubernetes, Terraform, Linux, Apache, Git, GitHub

📄 EDUCATION

Boolean Careers

Full-time bootcamp · 2022 – 2023
6 months, 700+ hours of web development theory and practice.

University “G. d’Annunzio”

Sociology and Criminology · 2016 – 2019
Left to follow my passion for tech.

To those who don't give up, to those who start over, to those who have their own **yellow brick road** but have learned to enjoy the detours.
